

STAMP YOUR WAY NATIONAL PARK'S CHALLENGE

Test your knowledge and learn something new!

All answers can be found in *Stamp Your Way Through the U.S.A.* books! Match the facts to the correct answers.

FACTS

1. Herds of bison can be found all throughout the park. Each bison can weigh up to 2,000 pounds.
2. The Lakotas called this park "mako sica" or "land bad" because of its extreme temperatures, lack of water, and rugged terrain.
3. The cliff dwellings at this national park are spectacular.
4. American Dipper birds eat insects and larvae in the rivers of this park. They can bob up and down at up to 60 dips per minute.
5. At this park, Old Faithful's eruption expels up to 8,400 gallons of water at a height of up to 180 feet.
6. Most rocks in this park are sedimentary, made up of rocks that have been weathered, eroded, and deposited in layers.
7. Noted for their succulent stems, pads, or branches with scales and spines, instead of leaves, this national park has eleven species of cactus.
8. This park is named after our 26th president who first came to the Dakotas to hunt bison.
9. Snakes and lizards, the only reptiles found here help control the insect and rodent population.
10. This park is a sacred site to the Lakota, Cheyenne and other tribes in the area.
